

**Honorable Friends,**

I present here the third National edition and the first International edition of our Research magazine. We are happy to inform you about our two great achievements. First of all we have got the magazine registered in Paris. Now it has got the recognition on international level too. Secondly, we have launched our website and it will make the magazine more approachable for you.

I am thankful to all the members for their great concern valuable suggestions and guidelines without which these achievements were quite impossible for me alone.

**There is an important burning issue for all my intellectual friends?**

All of us are spending a lot of money on our daily needs and in order to make our life luxurious and comfortable which we think is unavoidable.

Membership of Rs. 600 P.A. and 40 dollars P.A. should not be considered as a load, but we look forever to see it as a financial help.

Donors are welcomed in this context; we request the Vice Chancellor, Principals, Professors, Lecturers and Librarians etc. to give advertisement regarding the membership of their institution in this magazine.

I am sure you will be benefited by this magazine as it is completely devoted for your bright career & better recognition.

We look forward for your criticism and not only appraisals.

Dr. Krishan Bir Singh

Editor and Founder
